

Viadux, as the most progressive and responsive supplier of water network solutions, proudly respects and cares for the people and environment in which we operate.

Water is a precious resource and we take pride in maintaining a high standard of environmental care and deliver sustainable environmental outcomes, which help save water by embracing innovative solutions.

Viadux seeks to inspire all of their employees, suppliers, and contractors to deliver effective environmental sustainability, especially with respect to water. In order to achieve our objective of a high standard of environmental care our management team will embrace systems and programs to deliver sustainable environmental outcomes as part of our water network solutions.

Viadux will:

- *Comply with ISO 14001 and applicable legislative obligations and other requirements relevant to our environmental aspects. In the absence of specific legislation, the highest professional standards will be maintained*
- *Set measurable targets and objectives to ensure continual improvement and minimising the impact of our business on the local environment*
- *Manage our activities to prevent or minimise pollution and impacts on visual amenity, air, water, land, flora, fauna and cultural and heritage values*
- *Strive to prevent pollution, reduce waste and commit to recovery and recycling wherever possible*
- *Investigate and implement mutually beneficial programs of environmental management with interested parties*
- *Embrace the importance of environmental responsibility, particularly with regard to the management of water, among all employees, suppliers, contractors through the communication of this policy*
- *Provide appropriate supervision and regular reviewing and evaluating of the performance of the environmental management system*

This policy will apply to all employees and contractors.

This policy is reviewed periodically to ensure it remains relevant to the operations and activities of Viadux.
